PORTLAND MO'D'I 11 \$1 21 1546 "BUREAU WORK" OF THE NORTHERN

Strong resolutions have been promulgated at Tacoms and other pinces in Washington terri-tory commenting Senatore Delph and Michel, two of the Northern Pacific's for prorit on Liw pers, for their action in opposing he into sta of Oregon and sustaining those of the Northern Panific railroad company to course "the invar-sets of the people" are said to require that his ests of the people" are said to require that his great corporation shall have all is wants. But from the beginning of corporation domanis did now, this plen has been pic op in suppor of every corporation claim. It is noticeable that the resolutions purporting to have been prepared at meetings be don other early at leavest an widely separated 1st est in this to interf, its worded exactly able, should be interfured, for worded exactly able, should be interfured was manufactured at corporation tentiquaters, by the corporation literary in I pointed libureau, for use at Washington. It would seem to most near east if the North can Pacific rafficead a might which have been preferred and of thundreds of toomsands of acres of land, had of tained by the stime should as much land as one corporate ought to have flut if a raily and corporate th den times as much is would unquested thy went still incre-

much it would enumestion this went still more We are not objecting so much sowever, to its obtainment of a unifion or two of acres mare, mostly in the Cascade mountains, which is out a bagatelle in commersion with the enormous empire covered by the whole grant, as we do object to the greed of the company in holding on to the grant along the Columbia river, where there is no need of another road, and where there is no intention on the part of the company to construct another, and we do of lect further to the course of the Oregon senstors, who, acting ascorporation attorneys might, are supporting the company in its purpose to hold on to the grant along the Columbia 4.11 re linquishment of it can be made a condition of confirming to the company everything ease it claims from the Missouri river to Puget sound. Ther, too, it seems old, though perhaps it is not s'range when all the circumstances are con

solutions are the circumstances are on selected, to find the Oregon senators commend and by resolutions drawn by the literary and political bureau of the Northern Pacific rains of company—the enemy of Oregon and of Oregon's interests—for pursuing a course which, it is bessted, will cut business off from Oregon and transfer it to points outside the state would appear that Oregon is only incidentally represented in the United Statessenate. Its nom-inal representatives in that body owe paramount allegiance, evidently, to the Northern Pacific railroad company
It is declared, of course, that the company

must have all the land it claims, or it cannot complete the road over the Cascade mountains This is the stuff given out for popular communithe new table to the tribers, so as to bring the people, if possible, up to the point of supporting the entire demand of the corporation at Washington city. But even this will not suffice, without promptings from corporation. poration headquarters for the holding of meet ings, and to make the understanding entire t consistent and effective, the resolutions to be adopted are supplied (hectograph capes no doubt) by the literary and political bureau at corporation headquarters

With or without the remainder of the (iscade mountain land grant the company wil in doubledly complete the road through to Paget sound within a short time. The present play is to get and hold all it can. The two houses tre taking a course which will facilitate the c. n. pany's scheme There is a conflict be ween them, which is thely to result in just nothing a all. The senare passed a bill proposing to d clare forfeit those paris of the grant where the road has not yet been constructed. This was sent to the house, which body has substituted for it is own more reduced. But the order tuted for it its own more radical bill to declare foriest all those pornons of the grant where the road had not been constructed up to the true the grant expired, some four years ago The result of this disagreement very probably will be total failure to do anything and as a further consequence the company will keep its bands of on all the lands it loosely and widely claims, including those along the Columbia r or, where it has no intention or thought of each building a send.

FITZ JOHN POLTER 1

Gen, Gibbon, in his address to the graduat og class at West Point, said in substance that Priz John Porter could afford to rest his regulation on the judgment of such soldiers as krant, Schoffeld, Terry and teathy The quantum of Schofield, Terry and Getty. The opinion of Gen. Gibbon is entitled to respect as that of an salle, educated soldier, whose patriotic courage was proved on every great hattlefield of the army of the Potomac, and yet the question of Porter's guit will always be what the Biscare case is to-day, a subject of urreconcilable; difference of the provided of the provid ence of opinion among men of equal tandor and intelligence Gen J D Cox, who commanded the Twenty-lind army corps at the close of the war, was Grant's secretary of the interior and governor of One after the war, an sble lawyer judicial thinker and writer, alwarm admirer of schofield, under whom he served is among those who agree with tren Log take beof passionate or prejudiced spirit. He sub-lished a review of trant splea for Porter, and insisted that Porter's present defence is an ice post face plea that is, that he acted origin its with maliceous mean it mind i me, but at er the war, succovering what he did not know at the time, that Lorgetreet wis in his vicibity in nuch strong force that a total to be would be sebeen leaden hal he execute his orders, he now been leaden hal he execute his orders, he now pleads what he did not know at the time as an excuse for a disobe hence that was maximum as missis, however plausibly natured by his at facts information. Thus less we understind it the premient of their Cox. Low conceing that Languirest is a trustworth without blit be-lieves that what Longstreet thew Porter lid not then Know, at presented no proof of knowing at the time of blearing maltrail of leaf ist is, that lorter s whole infence is a perior thought—it is ex cost fucto information that cannot abute his inframous intent. Gen Grant and in all the discussions in congress we do not remember to have seen it answered by Parler's

disastrus campaign was calculated to place them both under grave suspicion of behavior that was defined by Porter bimself when he said "I confess I was not loval to teen Pope, int I was loyal to the fing ' The people gener lly believed at the time that if Porter and fought under Pope as be old under McClellan, when he saved him at values's Mills if Franklin had marrhed as promptly toward Pope as he idd under McClellan on the Peninsula, the Ua on army would not have suffered a bloody deveal. In our opinion the people then formed a correjudgment of the situation. It was not the first time nor the last time that McClelianism had paralyzed the efforts of the Union army for victory, and McClellanesm did not cease to curse our cause until Grant took command at he East. His grim force of character mastered it, but it defeated us at 2nd Bull Run at first Fredbut a careacted as at 2nd don hun at man Front erickshiping and Chancellorsville it panalysed bloade's pursuit of Les after trettyshing in o her words, McClellan lei his corps commanders, who were his pets, go as they pleased, and when McClellan was in disgrace they would not fight nor march with their old energy or spirit, they nor march with their old energy or spirit, they would continue to go as they pleased, giving a lail-hearted support to Pope, Runnside, Honker, and even Meade. Meade wanted to strike Lee before he crossed the Potimac, but the majority of his and even Meade. Meade wanted to strike Lee before he crossed the Po imac, but the majority of his corpe commanders declined to fight and Meade confessed that he was alraid to order builde, not because he distrusted the soundness of his agment, but because he would not be ported with cheerfulness and energy by his corps commanders. Grant managed to sucke this missma of McClellanusm out of the army; if he hash'nt succeeded in doing it he would

carried it he felt as indifferent to the late of the buttle between I ee and Pope, as the woman who yelled "go it husbrud, go it bear," or as Porter expressed it while he "was loyal to the flag he was not loyal to 'toe," which is simply anying that he was not loyal to the flag except when he approved of the flag bears.

Potter, if innocent, has been a fearful y wronged man if he is goatly he has not yet suffered brif enough. In our judgment the people generally think of P rter and Franklin about as the late tagt. Hencit of the 4th regulars, who fought uncer Porter at second Bull Ron, did, when he sa d that "in any European army Potter would have been shot and brubblin would have been relieved as promptly as Warren was 13 Sheridan."

Gen Cox gives due weight to the high military authority of Grant, Scholleid, Hancock,

tary authority of Grant, Schoffeld, Hancock, Getti and Terry, but in offect says farrly that it is safer to follow the truth than to follow the truest man, and that in his judgment Grant's defence of Porter is more gausrous than just that it has glottly had be a first to do to the first that the latest that the first th that in his effort to be fair to Porter he exhibited more magnitudity tian judicial acumen, that had trant been in Porter's position be would have instantly obeyed his orders—had he been it Pope's position he would never have pardone!

The proposition reported from Washington to build a railroad from some point on the Northern Pacific in Montana to Behring's straits, to connect with a nord on the other side leading through Asia and into Europe, is well enough at this time to excit a word of ridicule. Such an enterprise would cost untold millions of dollars and cauld never be built by private capital. And rel, the scheme is not wilder in this age than was that of a transcontinental railway forty years ago Unquestionably the thing could be done. Just think of it' By rail with a lerry transfer from New York to Paris.

THE GAME OF THE WHIRKY RING IN EAST PORTLAND

LAST PORTLAND, June 20 To the Littor of The Orrionian

As into ated by you impediately after the ate
state elections, the lawless whisky element of state elections, the lawless whisky element of biutinomah county or, more properly speaking of Portland and East Portland, has defiantly arrayed itself against the moral, law abiding element, and by its every not move and word declares its purpose to run the machinery of government in the westless in its own interest at all hazard. This is especially seen to be so it last Portland. The surventions of the two old parties carried out to his letter, the mandate of the whisky ring. It will be observed that each of the old party telester has been them names of good and true men men who life elected—would certainly see to it, that the ordinances equiting saloons to close at a certain Lour of the night, and of Bundays were enforced. It will be further observed that each ticket has
